Commodore's Message

Dear Members,

The boating season is around the corner. Easter is at the door. Daffodils and crocuses are blooming. Despite all this good news our first Easter Egg Hunt was cancelled due to snow! Well, enough is enough...maybe just a few more flakes.

We're already making plans for the summer season: the Beach Opening Party is scheduled for May 26 (perhaps we should schedule a snowdate!). Please mark your calendar for this fun occasion.

Also, please mark your calendar for May 18—the 1996 Spring Clean-Up Day. A long list of chores will be waiting including installing the floating dock, beach curtain and raft. We need a good number of volunteers to ready the beach for the season and keep our maintenance costs down. Please help your family carry a fair share of the burden.

We received a good response concerning the reinstatement of the Block Captain system. We are

DOWN THE GARDEN PATH

Eileen & George Herberger

April, Spring! Yippie! It finally arrived!

It is time to completely remove any remaining winter mulch. Divide summer and fall blooming perennials and prepare your annual beds. Renew forsythias by trimming after blooming. New buds for next year start to form shortly after this year's fade, so don't put this chore off too long. Maintain the youthful appearance by removing one or more of the oldest branches each year as needed.

If you did not already start to save egg shells now is a good time. When crushed and spread in the garden they help deter slugs.

Squirrels digging around the garden can be discouraged with tobacco dust. This can be found at some nurseries. Squirrels are smarter than some of us; they avoid tobacco in all forms. One gardener soaks cigarettes in a container of water making enough disgusting juice to sprinkle around his gardens.

Lawn care this time of year includes sod or reseeding new lawns and bare spots in established lawns. Remember to keep the new seed moist. Do not mow till the new grass is 3" high. Spray beer on a lawn to reduce thatch or if you sprinkle a thin layer of topsoil or compost on the lawn it will also help. It is best to mow high and often with sharp blades. The rule of thumb is to never remove more than one-third of the blade. Water deeply but not too often.

Donna provided us Au Natural Insect Management spray information: Boil 1/2 cup chopped chives in a pint of water. Cool and strain before using as a spray. OR...

- Add 3 tablespoons of any non-detergent liquid soap to a gallon of water. Rinse the plants with clear water after spraying. OR...
- Crush several cloves of garlic and bring to a boil in a quart of water, cool and strain.
- April is also a good time to apply pre-emergent herbicide to keep weeding to a minimum.
- For spreading tiny seeds use your old salt or pepper shaker.
- To organize garden tools try hanging an old shoe bag type organized in the garage or basement.

Spring showers us with its sweet fragrance and love happens...

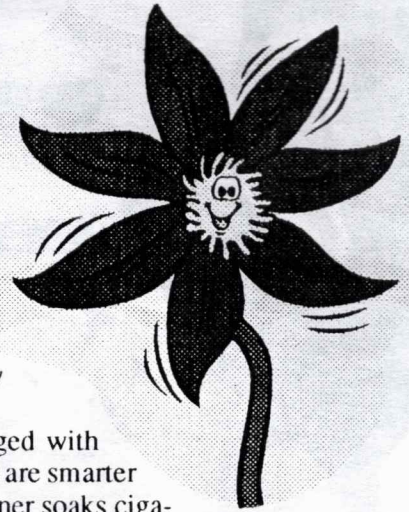

We would love to hear from you with your questions or tips. 663-5583. Call 9AM to 9 PM.

COMMODORE'S MESSAGE *cont'd from page 1*

still seeking volunteers to cover Ripplewood, Yacht Club and Woodlawn. These are all especially long streets and could best be served by 2 Block Captains each. Please call Margaret and put your name down so we can get this project underway.

Our St. Patrick's Trustee Brunch was well attended. We might do it again this year with some help from our members. If you have any suggestions please give me a call.

One more point of interest. I believe that we should update the picture collages that hangs in the Commodore's Room (and presently ends with 1986). Anyone interested in this task of sharing the memories of the Club can give me a call anytime. Talk to you soon. Bernard Genaud, Commodore

EMR CONSTRUCTION COMPANY

QUALITY & PERFORMANCE
SINCE 1976

At EMR we offer a full range of quality services, from new construction to complete home improvements, inside and out. These services include a thorough knowledge of township building codes and regulations (structural, electrical, plumbing and required inspections). Our in-depth knowledge comes with 20 years of local experience — ensuring that your job will be done right the first time.

You have probably seen contractors advertising, *deal with us and you deal with the owner/builder*, only to find all they really are is a glorified salesman — hiring all the subcontractors at the lowest price, and also the cheapest materials available — and disappearing when the job is under way. As the owner, builder, and lead man on the site, you will find me working hands-on with my crew, as well as supervising all aspects and phases of construction. And at EMR we use quality materials for every job. We deal only with reputable lumber and building supply yards that deal exclusively in quality materials.

EMR Construction has produced more projects in the last 20 years than nearly all of our competitors. As the owner I am proud that EMR is busy 12 months a year—every year—and that I do that by giving YOU the customer more right from the start, straight through to the end. I have the references to prove it. When I say it is guaranteed, IT IS!

I can offer you a great deal of knowledge and advice on planning your project, on dealing with your local building department, and on choosing the right materials. Please give me a call. I look forward to helping you find answers to all your project questions — from design to completion.

Thank you,
